

# BFAI

Biofuel Association Of India

Why join Association ?

# Price control !

## 01

Information - Tells producers how much their product will cost to make.

## 02

Incentives - Encourages producers to supply more prices are high.

## 03

Choice - More competitors means more choices available on the market.

## 04

Efficiency (KEY BENEFIT) - Wise use of resources and which products that consumers want.

## 05

Flexibility - demand can change overnight and the price system can deal with changes quickly.

# Quality control

- **Quality control (QC)** is a process through which a business seeks to ensure that product **quality** is maintained or improved. **Quality control** requires the business to create an environment in which both **manufacturer** and **retailer** strive for perfection
- **Here are 6 steps to develop a quality control process:**

Set your **quality** standards.

Decide which **quality** standards to focus on.

Create operational processes to deliver quality.

Review your results.

Get feedback.

Make improvements.

# Legal support
